

Hometown Heating 110 Plan

Our top maintenance plan and best option is the Hometown Heating 110 Plan. With this plan you get all the benefits of the Comfort Club and more. You never have to worry about a thing for the first TEN YEARS of your covered appliance!

With this plan you receive all of the following:

- 100% of your annual maintenance.
- 100% labour coverage on all parts until your unit is 10 years old.
- 100% parts coverage until your unit is 10 years old.
- 100% fully transferable to new homeowners if the house is sold.
- 10% off your next HVAC system.
- 10% off add-ons to your current HVAC system.

It's the 110 plan for this reason; 100% coverage, and 10% more through future discounts and savings, over the next 10 years.

Just like our other plans, a Hometown Heating office administrator will contact you annually (or semi-annually, depending on what you're covering) and set up the maintenance for you. We make sure to take complete care of your system and not leave you with anything to worry about! If you experience an issue with your system, just call us! We'll setup a licensed technician to have a look immediately!

What Happens After 10 Years?

Once the unit reaches the 10 year point, you can still qualify for the 110 Plan! At this point, we go to a year to year determination on whether the unit is insurable or not.

What Happens if it Isn't Covered Anymore?

If it is determined that your unit is not longer insurable through the 110 Plan, we still have the Comfort Club plan available to keep a moderate amount of coverage on your appliances.

The 110 Plan is the best option for absolute coverage and for future savings. 100% coverage on EVERYTHING.. and more! Contact us today at 613 – 925 – 1039 to get on the plan!
